Department of Transportation — Federal Aviation Administration
Supplemental Type Certificate

Number SA2962WE

This certificate, issued to Hermes Enterprises

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 25 of the Federal Aviation Regulations. (See T.C. Data Sheet A20WE)

Original Product — Type Certificate Number: A20WE

Make: Boeing

Model: 747-100, -200B, -200C and -200F

Description of Type Design Change: Installation of Hermes LD-3 Koollite refrigerated cargo container in accordance with FAA sealed Hermes Drawing List for container Part No. 3100-1. This container has met the minimum performance design and test requirements for TSO-C90/NAS-3610, Revision No. 2, 2K1C cargo unit load devices.

Limitations and Conditions: Maximum gross load 3500 lbs. The approval of this change in type design applies basically to the Boeing 747-100, -200B, -200C and -200F airplanes only. This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined by the installer that the interrelationship between this change and any of those other previously approved modifications will introduce no adverse effect upon the airworthiness of that aircraft. This determination should include consideration of significant changes in weight distribution such as an increase in the fixed disposable weight in the fuselage.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

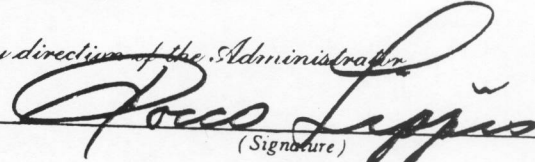

Date of application: Nov. 12, 1974

Date received:

Date of issuance: December 16, 1974

Date amended:

By direction of the Administrator
